I spent a bit of money on it and enjoyed it. After having to reinstall the game on a new device, opening the game with the account I used doesn't restore my progression, and the money I spent has disappeared into nothing. I've tried all my accounts, which took a long time because the tutorial is so long and annoying. I wish I could enjoy the game the way I used to, but it's been ruined. Maximilian Clark: they actually put in the effort. it would be nice to have more control in fights though, instead of just desperately looking on. it's great if "idle" is really what you're into! Rafat Mjalli: Not good map teleport system at all you have to keep moving all around to find tiles and gnomes bosses, and customers services doesn't respond , cant move to locations through map , good graphics and immortals system , game Uninstalled after more than 1 month of playing good luck! Craig Ireland: been playing less than a days worth so probs like 6hrs game play over a couple days. pretty good and fresh ish good choice of hero's etc battle format pretty fun so far. as with all though time will tell if it becomes, pay friendly, always a choice but not forced is what I'm looking for so we shall see! Royland Pepaño: This is the best game so far! It is very optimized in my phone even though it's only a budget phone. The game has superb graphics and animation. The story is very engaging. However, I would like to request a revamp in the animation in fighting scene. It's a bit edgy. Hoping for a long journey with this game! Needless: Like: I like the game evne tho the ads are a bit much the game is pretty relaxing there are times where i feel like there's nothing to do but there always is something to do level up your city, dragons, characters etc. Dislike: Not a lot of dragons in the game lol I want a space, life, death and time dragon i just want more dragons, so add more ok! Florin Nicolau: Game full of bugs and nobody care to ever fix them. In-game support is also useless. I'm sorry i wasted so much time with your game, guess it may be time to quit. To bad as game is looking nice, only people behind it who care only about money and those who spend. PS. too bad can't give less than 1 star, at this moment, as game is, doesn't worth nothing. Have a nice day and hope you learn something from all this. Andy Ward: there is a lot going on early in this game. I'm trying to decide if there is too much that leads to confusion and not completely necessary, or the right level of challenge. verdict is still out, however, I am having enough enjoyment to strive on to figure out the answer. Rex Thummm: I was hoping there was something different about this game but it's a gamble psychology. There's a reward for almost everything which is supposed to addict you. Aside from the greed the characters look horrible, just fire the defenses for those ridiculous designs. They really made sure to time everything you do to the max, it's like I already play clash of clans. I'm not starting another disaster up. If you're easily amused you can try this game but if you're smart like me, just pass on it. Light: Game is fun, but pay to win players always have a huge advantage over free to play. I lost a defense battle at 37k troop power while the attacker had only 22k. Free to play players are constantly forced to buy shields because of pay to win players attacking them constantly and dominating the game, making it unfair and unbalanced. Not to mention that most of the good immortals are pay to win only. This game is not free to play friendly. Download version 2.3.0 (92.79 Mb)
